January 24, 2016

Dear Sir/Ma'am,

I am in my final year, of the five year integrated BS-MS programme from the Indian Institute of Science Education and Research, Mohali (IISER M), India and am working on my master's thesis, provisionally titled 'Contextuality in a deterministic quantum theory'. I am interested in exploring string theory and its implications through cosmology and black-hole physics, for my PhD. The relevant supporting documents have been attached herewith. It would be great to have an opportunity, to work on the aforesaid, as a member of the group.

Sincerely,

Atul Singh Arora
