

GENETICS AND EVOLUTION

ATUL SINGH ARORA

Biology Lab III

Dr. N. G. Prasad and Dr. I FORGOT HIS NAME
Indian Institute of Science Education and Research, Mohali

August-December, 2012

*Every honest researcher I know admits he's just a professional amateur.
He's doing whatever he's doing for the first time. That makes him an
amateur. He has sense enough to know that he's going to have a lot of
trouble, so that makes him a professional.*

— Charles F. Kettering (1876-1958) (Holder of 186 patents)

ACKNOWLEDGEMENTS

I express my sincere gratitude to our instructors, Dr. N. G. Prasad and Dr. I FORGOT HIS NAME, for bringing the subject to life and helping us discover, in depth, the science behind the procedures.

I also thank Vivek Sagar (MS11017) for his contribution to this report as my lab-partner, who made the task of performing experiments immensely comfortable and productive at the same time.

EXPERIMENTS

INTRODUCTORY SESSION

This bundle for L^AT_EX has two goals:

1.1 ORGANIZATION

A very important factor for successful thesis writing is the

1.2 STYLE OPTIONS

There are a couple of options for `classicthesis.sty` that allow for a bit of freedom concerning the layout:

Many other customizations in `classicthesis-config.tex` are possible, but you should be careful making changes there, since some changes could cause errors.

Finally, changes can be made in the file `classicthesis.sty`, although this is mostly not designed for user customization. The main change that might be made here is the text-block size, for example, to get longer lines of text.

...or your supervisor might use the margins for some comments of her own while reading.

Modifications in `classicthesis.sty`

1.3 ISSUES

This section will list some information about problems using

Compatibility with the `glossaries` Package

If you want to use the `glossaries` package, take care of loading it with the following options:

```
\usepackage[style=long,nolist]{glossaries}
```

Thanks to Sven Staehs for this information.

Compatibility with the (Spanish) `babel` Package

Spanish languages need an extra option in order to work with this template:

Compatibility with the pdfsync Package

Using the pdfsync package leads to linebreaking problems with the graffito command

1.4 FUTURE WORK

So far, this is a quite stable version that served a couple of people

1.5 BEYOND A THESIS

It is easy to use the layout of classicthesis.sty without the

COLOPHON

This document was typeset using the typographical look-and-feel `classicthesis` developed by André Miede, for \LaTeX .
The style was inspired by Robert Bringhurst's seminal book on typography "*The Elements of Typographic Style*".

The latest version of this document is available online at:
